EXPERIENCE

Purple Lotus, San Jose, CA / Remote
Senior Software Engineer
APR 2022 - PRESENT
plpcsanjose.com / dev.plpcsanjose.com

- Developed and implemented a headless eCommerce platform using Next.js and Sanity CMS, with custom schema architecture, reusable content modules, and a flexible page-builder system.
- Integrated Algolia Instant Search, AWS Amplify (Cognito) user authentication, and third-party APIs including Treez, iHeartJane, and Google Maps/Places.
- Built scalable frontend architecture and optimized data pipelines for performance, SEO, and content flexibility.
- Drove web app sales growth from $12M to $16M within the first year, while expanding the user base to 4,000+ active customers

Oaksterdam University, Oakland, CA / Hybrid
IT Manager, Web Dev & Graphic Design
OCT 2014 - APR 2022

- Developed and maintained the WordPress site.
- Implemented and managed the Learning Management System (LMS) eCommerce, user auth, analytics, Google Workspace email, Mailchimp marketing, VoIP, live chat, and task collaboration tools.
- Provided IT support for staff and classrooms, designed instructor resources and slide decks, produced newsletters, photography, instructional videos, and managed merchandise & inventory.

Freelance Web Development, Remote
2013 - PRESENT

- Web development and optimization for clients across retail, education, SaaS, health & wellness, and creative industries.
